THE HEARTBEAT OF
FILTRATION INDUSTRY

www.iftexhibition.com

THIS EXHIBITION IS ORGANIZED UNDER THE SUPERVISION OF TOBB (UNION OF CHAMBERS AND COMMODITY EXCHANGES OF TURKIYE) IN ACCORDANCE WITH LAW NO. 5174

Exhibitor Profile

Exhibitors at IFTEX 2026 represent the leading companies, manufacturers, and innovators in the global filtration industry.

Key exhibitor groups include:

- Filter Manufacturers: Air, liquid, oil, gas, industrial, automotive, HVAC, medical and cleanroom
- Machinery & Equipment Suppliers: Filter production lines, testing & measuring devices, assembly systems
- Component & Raw Material Producers: Fibers, nonwovens, membranes, resins, adhesives, frames, housings
- Advanced Technology Providers: Nanofiltration, microfiltration, reverse osmosis, electrostatic systems
- R&D, Engineering & Consultancy Firms: Process optimization, energy efficiency, sustainability solutions
- Sub-Industry & Supporting Sectors: Packaging, maintenance, automation & control technologies
- Distributors & System Integrators: Regional and global partners connecting products to markets

Market Scope

IFTEX 2026 covers the entire value chain of the global filtration industry, highlighting both industrial and specialized applications. Key areas include:

- Industrial Filtration Systems
- Automotive Filtration Solutions
- Chemical Processing Filtration
- Advanced Filtration & Separation Technologies
- Ceramic & Glass Filtration Applications
- Paints, Pigments & Coatings Filtration
- Electroplating & Surface Treatment Filtration
- Semiconductor Manufacturing Filtration
- Heavy Industry Filtration Solutions
- Medical & Healthcare Filtration Solutions
- Printing Industry Filtration Applications
- HVAC & Air Conditioning
- Water & Wastewater Treatment
- Oil, Gas & Petrochemical Filtration
- Environmental & Energy-Saving Technologies
- Raw Materials & Sub-Industry Solutions

Visitor Profile

IFTEX 2026 attracts a high-quality international audience of decision makers, buyers, and professionals from across industries.

Main visitor groups include:

- Industry Buyers & Procurement Managers sourcing filtration systems and components
- Engineers, Technical Specialists & R&D Experts seeking innovative solutions and partnerships
- Investors, Distributors & Import/Export Firms expanding into new markets and technologies

End-User Industries:

- Automotive & Transportation
- HVAC & Building Technologies
- Oil, Gas & Petrochemical
- Water & Wastewater Management
- Chemical, Ceramic, Glass & Surface Treatment
- Semiconductor & Electronics
- Healthcare, Medical & Cleanroom Applications
- Printing & Coatings
- Environmental & Sustainability Experts focusing on green technologies and energy saving
- Trade Associations, Chambers & Industry Representatives – building global collaborations

**Filter Technology is Critical for
Both the Environment and Industry**

Why Visit **IFTEX 2026**?

IFTEX 2026 is more than an exhibition – it is a hub for innovation, networking, and business opportunities.

Visitors will benefit from:

- 🌐 International Participation – Exhibitors and visitors from over 20 countries
- 💡 Innovation Hub – Latest technologies, products, and solutions in filtration
- 🤝 B2B Meetings – Pre-arranged business matchmaking sessions
- 📚 Knowledge Sharing – Technical seminars, expert panels, and keynote presentations
- 🚀 New Product Launches – Exclusive introductions of cutting-edge filtration solutions

Event Highlights

- International Pavilions: Dedicated country zones showcasing national industry strengths
- Innovation & Technology Zone: A special area for start-ups and R&D-driven companies
- Conference Program: Sessions on sustainability, energy efficiency, and advanced filtration
- Networking Lounge: Space designed for building partnerships and collaborations
- Media & Press Coverage: Strong exposure for brands and innovations
